

Thanks to everyone who came to the meeting of the Mapping & Assessment Subcommittee this past Thursday. We made a lot of progress on hammering out the Arizona Fire Map proposal, and you all put up with a lot of slogging through details in the context of an intense working meeting. Your time and help is very much appreciated. Because of all the different perspectives represented in the meeting, we were able to identify a variety of key ingredients for the proposal that will strengthen it significantly.

Because of some near-term goals, we have a couple more intense meetings planned, both at the County Supervisors Association in Phoenix. After these goals are met, I hope to move to a more conventional meeting plan, with more structured agendas so that you can plan your time and make the most of your participation.

The upcoming working meetings are:

Friday, April 30, 10 am - 2 pm (We will break for lunch at noon.)  
Thursday, May 6, 1 pm - 5 pm

Basically, the near-term goals are:

- \* To complete the proposal by May 13 and present it to the Governors Forest Health Councils at their meetings in Pine.
- \* To complete a prototype extension to Arizona Map and have it ready for demo at those meetings.
- \* To get going on the survey of organizations doing fuels treatment work.

Thanks again for your time and assistance,  
Kathy
